

WILD DWELLING

Spaces you don't rush to leave.

The Sample Project

We believe a home should feel like you.
Shaped by the way you live, the things you love, and the character
already within its walls.
We create spaces that feel collected, lived in and deeply personal –
honouring the soul of the home while giving you the direction to let it
evolve with you.

A home for the life you're living now, and the chapters still to come.

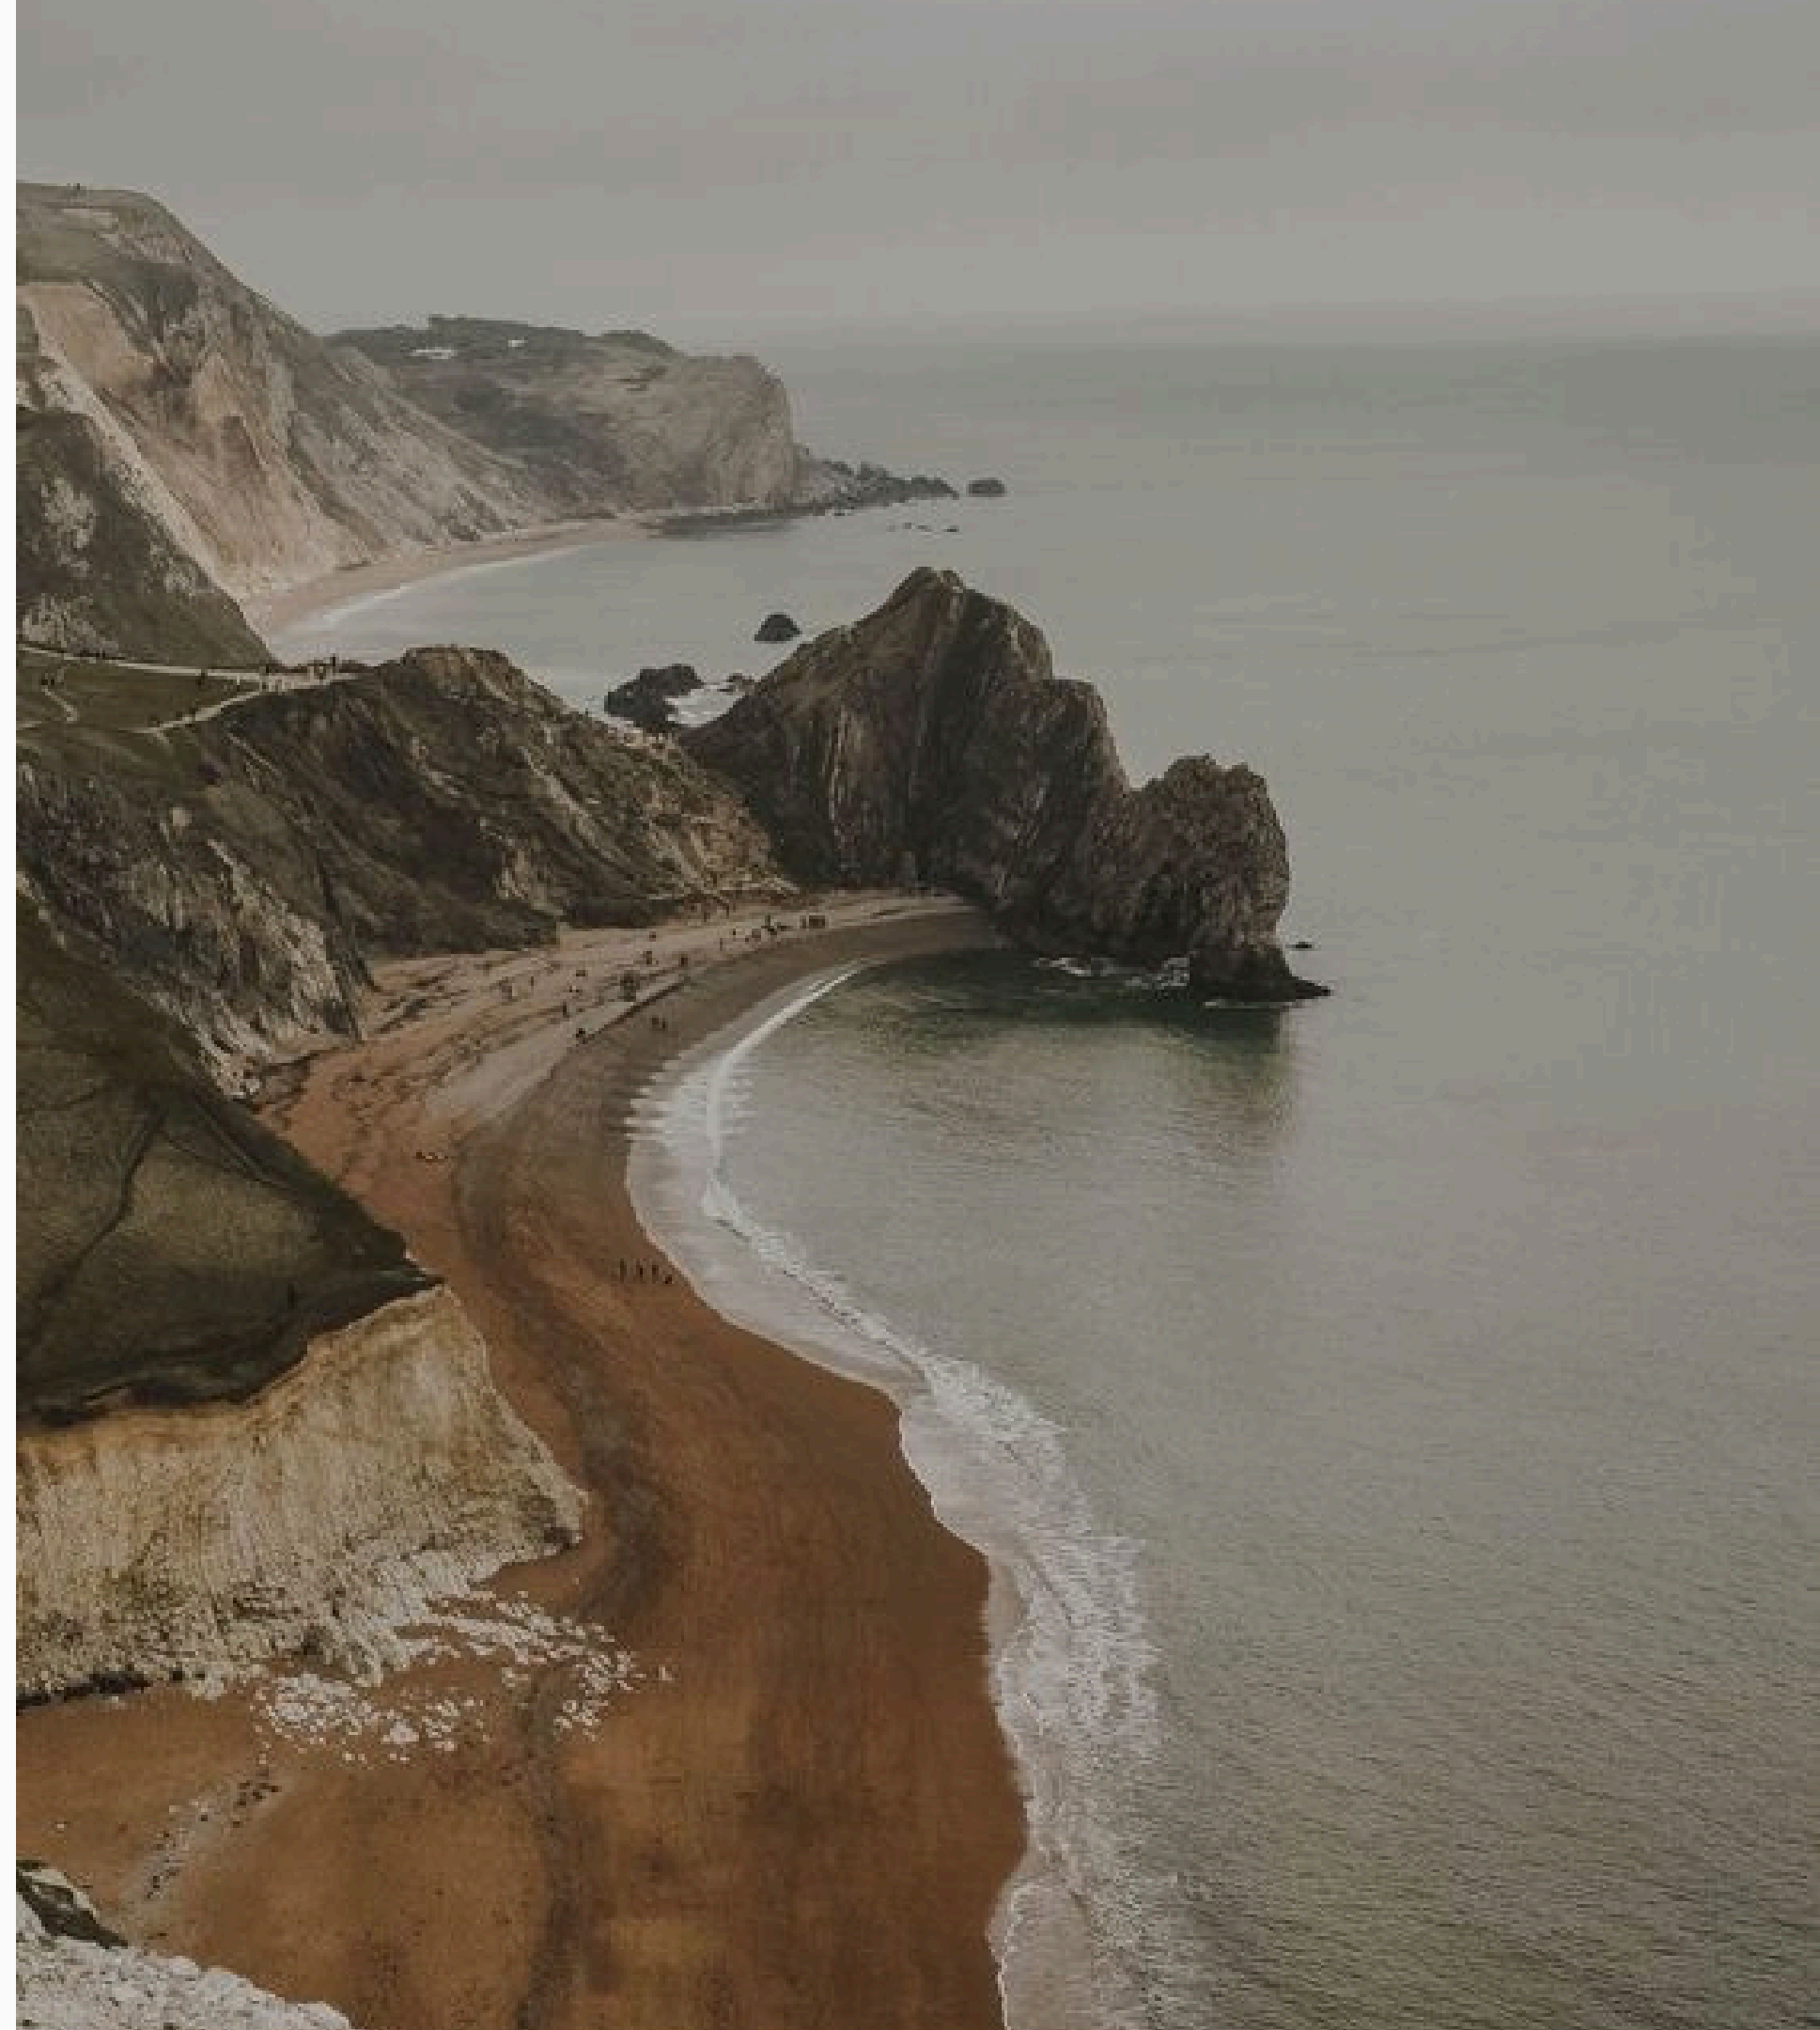

PROJECT VISION

SAMPLE PROJECT - BUDGET \$5000

Design Goals

- Create warmth and character
- Maximize functionality
- Bring the outdoors in
- Introduce natural textures
- Create a timeless foundation

THE VISION

The desire for this studio was simple: to make a new space feel like home.

A place that felt warm and grounded. Calm, but never empty. Connected to the forest beyond its walls, with natural materials, collected pieces and layers that brought character to a newly built space.

It needed to work beautifully for everyday life – a place for slow mornings, quiet evenings, shared meals and everything in between – while still feeling deeply personal.

The goal wasn't to fill the room or finish it all at once. It was to create a clear direction for the home: one that honoured its setting, reflected the life lived within it, and could continue to evolve over time.

A home that feels like it belongs – to the person, to the place, and to the life being lived there.

By the completion of this project, the home will feel warm, functional, and connected to its natural surroundings. Every furnishing and styling decision will work together to create a peaceful retreat that reflects the client's lifestyle while remaining timeless for years to come.

BATHROOM

A Place To Restore

The bathroom becomes a quiet retreat within the studio – a place to slow down and begin or end the day with intention. Natural stone, warm wood, woven texture and greenery soften the new-build interior, creating a space that feels grounded, restorative and connected to the landscape beyond.

KITCHEN / DINING

A Place To Gather

More than a place to prepare meals, this is where everyday life unfolds – morning coffee, shared meals and conversations around the table. Warm materials, thoughtful organization and collected pieces bring character to the existing kitchen while keeping it functional, welcoming and easy to live in.

LIVING SPACES

A Place To Unwind

The living space should invite you to settle in rather than rush through. Layered textiles, natural light, comfortable furnishings and pieces collected over time create a place for slow mornings, quiet evenings and conversation – grounded, warm and effortlessly lived in.

MATERIAL & MOOD PALETTE

A thoughtful palette is the foundation of every Wild Dwelling home. Inspired by nature, each material has been chosen to bring warmth, texture, and balance to the space. Rather than following trends, this palette creates a timeless backdrop that allows the home—and the life lived within it—to evolve beautifully over time.

THOUGHTFUL LAYERS

Every layer has been intentionally selected to bring warmth, depth, and authenticity to the home. Together, these materials create spaces that feel timeless, welcoming, and deeply connected to nature.

Natural Linen - Softness
Softens the home while adding warmth, movement, and texture.

Layered Textiles - Soul
Create comfort and depth through natural fibres and subtle variation.

Vintage Character - Warmth
Adds history, craftsmanship, and a collected sense of home.

Nature Inspired - Connection
Artwork and organic elements connect the interior to the landscape beyond.

STYLING WITH INTENTION

Styling is what transforms a beautifully designed room into a home that feels lived in and deeply personal. Thoughtfully layered textiles, collected objects, natural greenery, meaningful artwork, and handcrafted pieces bring warmth, balance, and authenticity to a space. Rather than decorating for the sake of filling a room, every detail is intentionally chosen to reflect your story and create a home that feels timeless, welcoming, and uniquely yours.

SIGNATURE PIECE

Every home deserves one piece with history and character.

Brass Woven Texture Aged Oak

CURATED SELECTIONS

Each piece has been thoughtfully selected to support the overall vision for your home. These selections serve as examples of the style, materials, and feeling to look for when your sourcing for your space. You're encouraged to choose similar pieces that suit your personal taste, budget and local availability while staying true to the overall design direction.

ITEM	RECOMMENDED STYLE	SHOPPING NOTES
Island	Antique Island w/ Stone Countertop	Local / Vintage
TV Unit	Simple black Cabinet	Matte finish, clean lines
Area Rug	Vintage Inspired Wool Rug	Loloi - soft pattern, muted tones

Counter Stools:
Softening the kitchen
with linen + texture.

Media Unit: Adding scale, storage + function.

Outdoor Furniture: Bringing warmth
outside through natural materials.

BRINGING THE VISION TO LIFE

A thoughtful home isn't created by replacing everything. We begin by understanding what deserves to stay, what no longer serves the space, and what will bring the vision together.

KEEP

What already belongs.

The existing kitchen cabinetry, flooring and architectural elements provide a clean foundation for the studio. Rather than changing what already works, we build from it.

REPLACE

What isn't serving the vision.

Pieces that don't support the function, scale or feeling of the space can be replaced intentionally – not simply because they're dated, but because something else will serve the home better.

ADD

What brings it together.

A vintage island, linen textiles, warm lighting, collected furniture, natural materials and greenery add the character and warmth the new-build space is missing.

WILD DWELLING

Home is never defined by the furniture within it.

It's found in slow mornings, shared meals, quiet evenings,
sunlight across the floor, and the rituals that unfold every day.

Our hope is that this design becomes more than a beautiful
space.

We hope it becomes the backdrop to a life well lived.

Spaces you don't rush to leave.
